Software Engineer

**Dob:** 09/03/2002

**Gender:** Male

**Phone:** 0355739860

**Email:** ducchuy093@gmail.com

**Address:** 356/115/8 Hoang Dieu, Binh Thuan, Hai Chau, Da Nang

## OBJECTIVE

I am currently studying the 4th year of Software Engineering at Duy Tan University. And I also just graduated from Aptech Softech on Java-fullstack. I am a student passionate about software engineering and want to explore and develop my skills in a real-life environment. With a solid educational foundation and logical thinking ability, I wish to participate in an internship program with a pioneering company in the field of software technology to grasp new knowledge and apply principles. best and contribute to the development of the organization.During my studies, I have accumulated knowledge about programming, data structures, algorithms and software project management in programming languages such as C++, C# and Java. I have applied this knowledge in team projects where I have collaborated with other members to create efficient and reliable software solutions. I also have experience working with popular development tools such as Eclipse, Visual Studio and Git, as well as working with SQL and MySQL databases. I need to master the necessary knowledge and skills in the field of software engineering. Participate in real-life projects to apply knowledge and skills learned. Improve your English skills through vocabulary learning, listening practice, speaking practice and reading.

My goal is to dedicate myself fully, work diligently, and learn as much as possible in the places where I have the opportunity to intern or work. I want to utilize all of my abilities to strive for a position that I have always dreamed of, which is becoming an exemplary Lead Developer.

## EDUCATION

2020 - 2024	<b>Duy Tan University</b> Software Engineering Still studying and good
2023 - 2024	<b>Softech Apech</b> Course Java-fullstack Good

## HONORS & AWARDS

2019	I won the second prize in the high school swimming competition.
------	---

## SKILLS

<b>Languages</b>	Java, C#
<b>Framework</b>	Java EE , Spring Boot, .NET, .NET Core, ASP.NET Core, Entity Framework
<b>Libraries</b>	Java Standard, Apache HttpClient, Newtonsoft.Json, JWT
<b>Database</b>	MySQL, SQL Server

Back-End	Java Servlet, Spring, MVC, API
Analyze requirements and design systems	
Team development with Git	

INTERESTS

Team Building, swimming, singing, performing arts, playing sports.
